## Calcium Plus Vitamin D

DIETARY SUPPLEMENT

Calcium Plus Vitamin D is one of the most popular food supplements offered by Nature's Sunshine. In addition to calcium and vitamin D, the product also contains magnesium. Each of these ingredients improves bone and dental health. The main ingredient of the product is calcium, which – apart from having a beneficial effect on bones and teeth – supports the proper functioning of muscles and helps maintain healthy nerve conductivity. Vitamin D facilitates the absorption and utilisation of calcium and phosphorus. The product also contains magnesium, which improves muscle health and supports the nervous system.

- Calcium and magnesium are crucial for bone and dental health.
- Vitamin D helps maintain a healthy blood calcium level.
- Magnesium and calcium have a beneficial effect on energy metabolism.

---

**INGREDIENTS:**

Anti-caking agent: calcium phosphates, magnesium oxide, calcium carbonate (calcium in chelate form), calcium salts of citric acid, filling agent: magnesium salts of fatty acids, alfalfa herb powder (medicago sativa), magnesium oxide (magnesium in chelate form) cholecalciferol, glazing agent: carnauba wax.

---
