DESCRIPTION OF THE ITEM

The face wash gel is based on two natural ingredient combinations: blossoming complexion and healthy complexion.

Blossoming complexion contains peony and magnolia extracts. Peony extract has an antioxidant and calming effect, narrows the pores and is suitable even for sensitive skin.

Peonies are considered to be one of the most effective floral ingredients in skin care, while magnolia extract protects and has anti-inflammatory properties.

This wonderful product extracts impurities from the skin, helps in achieving a perfectly even complexion, soothes, nourishes and moisturises.

The Bremani Care micellar gel acts like a magnet, extracting and removing make-up residue, excess sebum and other impurities. It cleanses the skin gently, leaving a pleasant feeling of softness and hydration.
