DESCRIPTION OF THE ITEM

Olive Leaf - Extract

DIETARY SUPPLEMENTS

The olive (*Olea europaea*), from which the extract is obtained, is a plant that occurs primarily in Southern Europe: Greece, Italy and Spain. Olive leaves have traditionally been used for medicinal purposes. Owing to the fact that the olive increases body's immunity during difficult weather conditions, it is an excellent product for those who practice winter sports. Moreover, the olive supports the performance of the upper respiratory tract.

Other properties of the olive:

- It supports the performance of the digestive system.
- It is rich in antioxidants that protect against free radicals.
- Traditionally, it has been used to improve circulation.
